

# Proposals of General Secretary Sports and Games

SERAMPALLY SRI HARSHA REDDY

## Proposals:

1. Introduction of student-run clubs for those students who are interested in learning and improving their performance.
2. Addition of E-sports in our General Championship.  
(Which can also be conducted amidst the pandemic, from home.)
3. Inclusion of slot booking for hassle free access to the various grounds and courts on our new Gymkhana website.
4. Promoting women's football.

## PROPOSAL 1:

Introduction of student-run clubs for those students who are interested in learning and improving their performance.

### SALIENT FEATURES AND IMPACT:

1. Our college students wish to learn and take part in a lot of sports activities. Provisions for the same are less and are insufficient for all enthusiasts. I propose the introduction of student-run clubs under Gymkhana which strives to help the student enhance their performance.
2. Despite not being selected for NSO of a sport, the student could be talented and might lack practice due to vigorous preparation for JEE or due to lack of facilities.
3. This proposal will also prepare first-year students for inter IIT.

## PLAN OF ACTION:

1. There will be 2 inter IIT players, 2 NSO 2<sup>nd</sup> year players or earlier NSO players of 3<sup>rd</sup> year, supervised by a coach.
2. Weekly once or twice, these sessions will be conducted.
3. The students will be given a certificate by the Gymkhana for working towards the advancement of sports culture.

**This survey was conducted among the first-year students of KGP.**

**Q. Do you think these clubs are required for the betterment of KGP's sports culture?**

**Total votes: 155**

## PROPOSAL 2:

Addition of E-Sports in our General Championship. (Which can also be conducted amidst the pandemic, from home.)

### SALIENT FEATURES AND IMPACT:

1. E-Sports can be included in Gymkhana inter-hall competitions even when all the students are at home amidst the pandemic.
2. E-Sports are a major source of relief during the online semesters. These are also gaining widespread popularity.
3. Participating in E-Sports will enable students to connect online. This promotes bonding of freshers with their respective hall mates.

### PLAN OF ACTION:

1. There will be a team of 3 or 4 players relevant to the game (Dota, Valorant, Apex, CS Go, etc.)
2. Proctoring and smooth management of the tournament will be ensured by our secretaries.
3. In this event the games to be played will be finalized after a meeting held with the representatives from each hall of residence.

### PROPOSAL 3:

Inclusion of slot booking for hassle free access to the various grounds and courts on our new Gymkhana website.

#### SALIENT FEATURES AND IMPACT:

1. A new column will be added to our official Gymkhana website. This new feature enables students to book slots depending on the availability of various courts and grounds.
2. This will ensure the prevention of any clashes among students or halls for booking the courts and grounds.
3. Through this process we can ensure transparency.
4. This enables students or hall representatives to book courts or grounds conveniently from their rooms.

## PLAN OF ACTION:

1. The managers of the existing Gymkhana website will be contacted to add this feature to the website.
2. A senate meeting will be held with all the representatives from the individual sports fraternity along with hall representatives to distribute slots on priority basis.

**This survey was conducted among the students of KGP.**

**Q. Do you think this new feature will make booking slots hassle free in our college?**

**Total votes: 102**

## PROPOSAL 4:

Promoting women's football.

### SALIENT FEATURES AND IMPACT:

1. Conducting orientation programs for all women in our college to inspire and promote interest.
2. Organizing women open IIT tournaments will encourage them to actively take part.

#### PLAN OF ACTION:

1. Organizing regular workshops for the betterment of the sport.
2. Preparing a 7 v 7 football ground exclusively for women.

#### TESTIMONIAL:

“Proper infrastructure should be provided and orientation programs should be held for each hall, effectively to motivate the women community.”

~ Priyanka Kumari Ma'am (Sports officer, football)
